

The Delaware, Lackawanna and Western Rail-Road Company,

Office, COAL DEPARTMENT,

Geo. D. Phelps Esq. Pres.

Scranton, Pa., April 1st 1854

Scranton - Wis.

Herewith please find Estimate of probably amount of Coal produced from Strain & Mines for the Season & including that received at Pine Brook to date.

	per Day	per Month (by days)	1853.	Remarks-
1854 Jan'y	281	6,946	278 ⁹	It will not be safe to calculate upon more than 150 mt tons from these mines, as I think (after consulting the Contractors &c.) this is a full estimate & no allowance made for Contingencies - If more Coal is required you will see we will have to depend upon other sources perhaps the only reliable will be Pine Brook - Clark I presume
Feb'y	329	7,910	1601 ¹²	
March	329	7,900	5198 ¹⁵	
April	365	9,000	5441 ⁵	
May	458	11,000	6777 ¹¹	
June	500	12,000	7753 ¹⁶	
July	666	16,000	8488 ⁴	
Aug.	750	18,000	10540 ⁶	
Sept.	833	20,000	8769 ⁵	
Oct.	916	22,000	7972 ¹³	
Nov.	1000	24,000	7379 ⁸	
		154,556	70501 ¹¹	

would furnish some but fear it would not be safe to depend upon him for any great amount this year. having but limited fixtures - hands &c. will require some time to get fairly underway - Beckins Ho think they shall have no difficulty whatever in keeping a full supply of mines, thus far their men appear entirely satisfied. Still there turn out, come frequently upon you when least expected

Wm. S. Albright Esq.
